Important Reminders

Rechargeable Devices.

Devices which contain batteries are very dangerous if chewed or swallowed. If we are unaware of devices such as apple air tags or small voice recorders, then we are unable to keep our children safe. Some children, especially if they have additional needs or who are teething will chew on anything and everything that will satisfy them. Due to these items being incredibly dangerous causing severe burns in the mouth, oesophagus and leading to death these items are banned from school.

If we find any items that contain batteries that we are unaware of they will be destroyed. Thank you for your cooperation with this matter.
